

Family Centered Service Coordination

Eligibility

- **Two or more family members experiencing mental health symptoms –no diagnosis needed.**
- **Actively participating or interested in obtaining mental health services.**
- **Able to meet with staff weekly**
- **Willingness to close any other service coordination services**

Specialized Coordination

Family-Centered Service Coordination (FCSC) is an approach to coordinating mental health services and support when two or more members of the family have a current mental health need. FCSC is intended to focus on the needs of the entire family and coordinates a holistic plan that addresses the individualized needs of each family member as well as the needs, goals, and priorities of the family as a whole.

What's Unique?

- **A long-term support for families**
- **A case management service**
- **Works within family's natural environment including: home, school ,and community.**
- **Meets with each family weekly.**
- **Offers a high degree of collaboration with family's team.**
- **Provides:**
 - **Assessment**
 - **Service Planning**
 - **Referrals, linkages, advocacy, and follow-up**

Family Centered Service Coordination

Mission

Our mission is to empower individuals, families and communities by improving their quality of life through specialized, personalized, enhanced and effective service coordination.
